

## R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01 Issue date: 04/01/2016 Revision date: 09/01/2024 Supersedes: 09/01/2023 Version: 2D

# Warning

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Trade name SDS no Other means of identification CAS br. EC br. Indeks br.	: R452A : RS-R452A-01 : HFC452A : None. : None. : None.
REACH no.	: None.
1.2. Relevant identified uses of the substance or r	nixture and uses advised against
Relevant identified uses	<ul> <li>Industrial and professional uses.</li> <li>Test gas / Calibration gas. Laboratory use. Use as refrigerant.</li> <li>Perform risk assessment prior to use.</li> </ul>
Uses advised against	: Consumer use. Uses other than those listed above are not supported, contact your supplier for more information on other uses.
1.3. Details of the supplier of the safety data shee	<u>t</u>
Messer Tehnogas AD Banjicki put , 62 RS– 11090 Belgrade, Serbia T +381 11 35 37 200 - F +381 11 35 37 291 <u>www.messer.rs</u>	
1.4. Emergency telephone number	
Emergency telephone number	: Poison Control Center, VMA Crnotravska 17, Belgrade, Serbia Tel. : +381(0) 11 360 8440 (24h)

# **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

# Classification according to Regulation (EC) No. 1272/2008 [CLP]

Physical hazards Gases under pressure : Liquefied gas

### 2.2. Label elements

### Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP)

Signal word (CLP) Hazard statements (CLP) Precautionary statements (CLP) - Storage Supplemental information

- : Warning
- : H280 Contains gas under pressure; may explode if heated.

H280

- : P403 Store in a well-ventilated place.
- : Contains greenhouse gases listed in Annex I of EU 2024/573.

R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

### 2.3. Other hazards

The mixture is not flammable in air at normal temperature and pressure. Certain compounds with air, under certain pressure, they can be flammable. Contact with liquid may cause cold burns/frostbite.

Asphyxiant in high concentrations. Not classified as PBT or vPvB. The substance / mixture has no endocrine disrupting properties.

# **SECTION 3: Composition/information on ingredients**

# 3.1. Substances

Not applicable

### 3.2. Mixtures

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP] ATE, EUH-statements, M-Factors
Pentafluoroethane (R125)	CAS no.: 354-33-6 EC no.: 206-557-8 Index no.: REACH no.: 01-2119485636-25	59	Press. Gas (Liq.), H280
2,3,3,3-Tetrafluoroprop-1-ene (R1234yf, HFC- 1234yf)	CAS no.: 754-12-1 EC no.: 468-710-7 Index no.: REACH no.: 01-0000019665-61	30	Flam. Gas 1B, H221 Press. Gas (Liq.), H280
Difluoromethane (R32)	CAS no.: 75-10-5 EC no.: 200-839-4 Index no.: REACH no.: 01-2119471312-47	11	Flam. Gas 1B, H221 Press. Gas (Liq.), H280

Full text of H- and EUH-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

# SECTION 4: First aid measures

### 4.1. Description of first aid measures

- Inhalation	: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Maintain an open airway. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.
- Skin contact	: Carefully remove contaminated clothing. In case of frostbite spray with water for at least 15
	minutes. Do not use hot water! Apply a sterile dressing. Obtain medical assistance.
- Eye contact	<ul> <li>Immediately flush eyes thoroughly with water for at least 15 minutes. If irritation occurs: rinse with plenty of water. Remove contact lenses if you have them. Obtain medical assistance.</li> </ul>
- Ingestion	: Ingestion is not considered a potential route of exposure.
4.2. Most important symptoms	and effects, both acute and delayed
	In high concentrations may cause asphyxiation. Symptoms may include loss of

mobility/consciousness. Victim may not be aware of asphyxiation. See section 11.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Take first aid measures. Loosen tight clothing, such as a collar, tie or belt. Place the unconscious person in a lateral position. Seek medical attention.

R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

# **SECTION 5: Firefighting measures**

## 5.1. Extinguishing media

5.1. Extinguishing media	
- Suitable extinguishing media	: Water spray or fog. Product does not burn, use fire control measures appropriate for the surrounding fire.
- Unsuitable extinguishing media	: Do not use water jet to extinguish.
5.2. Special hazards arising from the substance	or mixture
Specific hazards	: Exposure to fire may cause containers to rupture/explode.
Hazardous combustion products	: At high temperature, dangerous gases can be released. Carbon monoxide. Hydrogen fluoride. Carbonyl fluoride.
5.3. Advice for firefighters	
Specific methods	<ul> <li>Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.</li> <li>If possible, stop flow of product.</li> <li>Use water spray or fog to knock down fire fumes if possible.</li> <li>Move containers away from the fire area if this can be done without risk.</li> </ul>
Special protective equipment for fire fighters	<ul> <li>In confined space use self-contained breathing apparatus.</li> <li>Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters.</li> <li>Standard EN 469 - Protective clothing for firefighters.</li> <li>Standard EN 659 - Protective gloves for firefighters.</li> <li>Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.</li> </ul>

SECTION 6: Accidental release measures		
6.1. Personal precautions, protective equipment and emergency procedures		
For non-omorgonov porconnol	· Act in accordance with local amorgoney plan	

For non-emergency personnel	: Act in accordance with local emergency plan.
	Try to stop release.
	Evacuate area.
	Ensure adequate air ventilation.
	Prevent from entering sewers, basements and workpits, or any place where its
	accumulation can be dangerous.
	Stay upwind.
	See section 8 of the SDS for more information on personal protective equipment.
For emergency responders	: Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.
	Oxygen detectors should be used when asphyxiating gases may be released.
	See section 5.3 of the SDS for more information.
6.2. Environmental precautions	
	Try to stop release.
6.3. Methods and material for containme	ent and cleaning up
	Ventilate area.
6.4. Reference to other sections	
	See also sections 8 and 13.

R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

# **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Safe use of the product	<ul> <li>The product must be handled in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke while working with the product. Wash hands after use. Wear personal protective equipment (See section 8).</li> <li>Only experienced and properly instructed persons should handle gases under pressure. Consider pressure relief device(s) in gas installations.</li> <li>Ensure the complete gas system was (or is regularily) checked for leaks before use.</li> <li>Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt.</li> <li>Avoid suck back of water, acid and alkalis.</li> <li>Do not breathe gas. Avoid release of product into work area.</li> </ul>
Safe handling of the gas receptacle	<ul> <li>Do not breating gas. Avoid release of product into work area.</li> <li>Refer to supplier's container handling instructions.</li> <li>Protect containers from physical damage; do not drag, roll, slide or drop.</li> <li>When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. If the protection cap is too tight, remove it with adjustable wrench. Never insert sharp objects into the cavities of the cap, this can lead to damage to the valve and leakage. Open valve slowly to avoid pressure shock.</li> <li>If user experiences any difficulty operating valve discontinue use and contact supplier. Never attempt to repair or modify container valves or safety relief devices.</li> <li>Damaged valves should be reported immediately to the supplier.</li> <li>Keep container valve outlets clean and free from contaminants particularly oil and water.</li> <li>Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment.</li> <li>Close container valve after each use and when empty, even if still connected to equipment. Never attempt to transfer gases from one cylinder/container to another.</li> <li>Never use direct flame or electrical heating devices to raise the pressure of a container. Do not allow backfeed into the container.</li> <li>Suck back of water into the container must be prevented.</li> <li>Do not remove or deface labels provided by the supplier for the identification of the content of the container.</li> </ul>
7.2. Conditions for safe storage, including	any incompatibilities
	Segregate from oxidant gases and other oxidants in store. All electrical equipment in the storage areas should be compatible with the risk of a
	potentially explosive atmosphere.

Observe all regulations and local requirements regarding storage of containers.

Containers should not be stored in conditions likely to encourage corrosion.

Container valve guards or caps should be in place.

Containers should be stored in the vertical position and properly secured to prevent them from falling over.

Stored containers should be periodically checked for general condition and leakage. Keep container below 50°C in a well ventilated place.

Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

### 7.3. Specific end use(s)

None.

R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

# SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

# Pentafluoroethane (R125) (354-33-6) DNEL: Derived no effect level (Workers) Long-term - systemic effects, inhalation 16444 mg/m³

2,3,3,3-Tetrafluoroprop-1-ene (R1234yf, HFC- 1234yf) (754-12-1)	
950 mg/m <sup>3</sup>	
0.1 mg/l	
1 mg/l	

Difluoromethane (R32) (75-10-5)	
DNEL: Derived no effect level (Workers)	
Long-term - systemic effects, inhalation	7035 mg/m³

Difluoromethane (R32) (75-10-5)	
PNEC: Predicted no effect concentration	
Aqua (freshwater)	0.142 mg/l
Aquatic, intermittent releases	1.42 mg/l
Sediment, freshwater	0.534 mg/kg dwt

# 8.2. Exposure controls

### 8.2.1. Appropriate engineering controls

	Provide adequate general and local exhaust ventilation. Systems under pressure should be regularily checked for leakages. Ensure exposure is below occupational exposure limits (where available). Oxygen detectors should be used when asphyxiating gases may be released. Consider the use of a work permit system e.g. for maintenance activities.	
8.2.2. Individual protection measures, e.g. personal protective equipment		
	A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.	
Eye/face protection	Wear goggles when transfilling or breaking transfer connections. Standard EN 166 - Personal eye-protection - specifications.	
Skin protection		
- Hand protection	<ul> <li>Wear working gloves when handling gas containers.</li> <li>Standard EN 388 - Protective gloves against mechanical risks, performance level 1 or higher. Recommended types include wrist gloves from leather or synthetic material with equivalent performance, fabric gloves, fabric gloves with leather palms.</li> <li>Wear cold insulating gloves when transfilling or breaking transfer connections.</li> <li>Standard EN 511 - Cold insulating gloves, performance level 1 or higher. Recommended types include insulated gauntlets or gloves specifically selected to prevent liquid penetration and ingress of cryogenic liquids and to provide mechanical resistance.</li> </ul>	

R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

- Other	: Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
Respiratory protection	: Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen-deficient atmospheres. Self contained breathing apparatus is
	recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems. Standard EN 137 - Self-contained open-circuit
	compressed air breathing apparatus with full face mask. Consult respiratory device supplier's product information for the selection of the appropriate device. When indicated by
	a risk assessment, Respiratory Protective Equipment must be used. The selection of the Respiratory Protective Device (RPD) must be based on known or anticipated exposure
	levels, the hazards of the product and the safe working limits of the selected RPD.
• Thermal hazards	: None in addition to the above sections.

8.2.3. Environmental exposure controls

Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

## **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

Appearance		
- Physical state at 20°C / 101.3kPa :	Gas.	
- Colour :	Colourless.	
Odour :	Mixture contains one or more component(s) which have the following odour: Ethereal.	
	Odour threshold is subjective and inadequate to warn of overexposure.	
Melting point / Freezing point :	Not applicable for gases and gas mixtures.	
Boiling point :	-47°C	
Flammability :	The mixture is not flammable in air, at normal temperature and pressure. Certain	
	compounds with air, under certain pressure, can be flammable.	
Lower explosion limit :	Not available	
Upper explosion limit :	Not available	
Flash point :	Not applicable for gases and gas mixtures.	
······································	Non flammable.	
Decomposition temperature :	> 743°C	
pH :	Not applicable for gases and gas mixtures.	
Viscosity, kinematic :	Not applicable for gases and gas mixtures.	
Water solubility [20°C] :	Mixture is partially soluble in water.	
Partition coefficient n-octanol/water (Log Kow) :	Not available	
	13.6 bar(a)	
Vapour pressure [50°C] :	Not available.	
Density and/or relative density :	Not applicable.	
	3.64	
Particle characteristics :	Not applicable for gases and gas mixtures.	
	Nanoforms are not relevant for gases and gas mixtures.	
9.2. Other information		
9.2.1. Information with regard to physical hazard classes		
Explosion limits :	Non flammable.	
Oxidising properties :	No oxidising properties.	
9.2.2. Other safety characteristics		
Other data :	Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.	

# **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

No reactivity hazard other than the effects described in sub-sections below.

10.2. Chemical stability

Stable under normal conditions.

R452A according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

10.3. Possibility of hazardous reactions	
	Under certain conditions of temperature and pressure, it can form a flammable mixture with air. It reacts violently with oxidants.
10.4. Conditions to avoid	
	Keep away from heat sources/sparks/open flames/hot surfaces No smoking. Avoid moisture in installation systems. (See Section 7.)
10.5. Incompatible materials	
	Light metals, bases and caustic products, strong oxidizing agents, fine metal powder (Al, Mg, Zn), moisture. For additional information on compatibility refer to ISO 11114.
10.6. Hazardous decomposition products	
	Under normal conditions of storage and use, hazardous decomposition products should not be produced. During pyrolysis, CO <sub>2</sub> , CO, fluorine, carbonyl - fluorine, hydrogen fluoride are released.

# SECTION 11: Toxicological information

# 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

11.1. Information on hazard classes as defined in Regulation (EC) No 12/2/2008	
Acute toxicity	: Classification criteria are not met.
Pentafluoroethane (R125) (354-33-6)	
LC50 Inhalation - Rat [ppm]	800000 ppm/4h
2,3,3,3-Tetrafluoroprop-1-ene (R1234yf, H	IFC- 1234yf) (754-12-1)
LC50 Inhalation - Rat [ppm]	405000 ppm/4h
Difluoromethane (R32) (75-10-5)	
LC50 Inhalation - Rat [ppm]	520000 ppm/4h
Skin corrosion/irritation	: No known effects from this product.
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.

· •/····	•
Toxic for reproduction : unborn child	: No known effects from this product.
STOT-single exposure	: No known effects from this product.
STOT-repeated exposure	: No known effects from this product.
Aspiration hazard	: Not applicable for gases and gas mixtures.
11.2 Information on other horardo	

# 11.2. Information on other hazards

Other information

: The substance/mixture has no endocrine disrupting properties.

# **SECTION 12: Ecological information**

### 12.1. Toxicity

Assessment		
EC50 48h - Daphnia magna [mg/l]		
EC50 72h - Algae [mg/l]		
LC50 96 h - Fish [mg/l]		

- : Classification criteria are not met.
- : No data available.
- : No data available.
- : No data available.

# R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

Pentafluoroethane (R125) (354-33-6)	
EC50 48h - Daphnia magna [mg/l]	> 100 mg/l
EC50 72h - Algae [mg/l]	142 mg/l
LC50 96 h - Fish [mg/l]	109 mg/l
2,3,3,3-Tetrafluoroprop-1-ene (R1234yf, HFC- 1234	lyf) (754-12-1)
EC50 48h - Daphnia magna [mg/l]	> 100 mg/l
EC50 72h - Algae [mg/l]	> 100 mg/l
LC50 96 h - Fish [mg/l]	> 197 mg/l
Difluoromethane (R32) (75-10-5)	
EC50 48h - Daphnia magna [mg/l]	652 mg/l
EC50 72h - Algae [mg/l]	164 mg/l
LC50 96 h - Fish [mg/l]	1507 mg/l
12.2. Persistence and degradability	
Assessment	· No data avaliable.
12.3. Bioaccumulative potential	
Assessment	· No data avaliable.
<u>12.4. Mobility in soil</u>	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.
12.5. Results of PBT and vPvB assessment	
Assessment	: Not classified as PBT or vPvB.
12.6. Endocrine disrupting properties	
Assessment	: The substance/mixture has no endocrine disrupting properties.
12.7. Other adverse effects	
Other adverse effects	: No known effects from this product.
Effect on the ozone layer	: No effect on the ozone layer.
Global warming potential [CO <sub>2</sub> =1] according to	: Pentafluoroethane (R125) (354-33-6): 3500
Annex I of EU 2024/573	2,3,3,3-Tetrafluoroprop-1-ene (R1234yf, HFC- 1234yf) (754-12-1): 0,501
	Difluoromethane (R32) (75-10-5): 675 Calculated GWP of mixture: 2139,4
Effect on global warming	: When discharged in large quantities may contribute to the greenhouse effect. Contains fluorinated greenhouse gases listed in Annex I of EU 2024/573.
SECTION 13: Disposal considerations	

13.1. Waste treatment methods	
	<ul> <li>Refer to supplier's waste gas recovery programme. Contact supplier if guidance is required. Discharge to atmosphere in large quantities should be avoided. Do not discharge into any place where its accumulation could be dangerous. Ensure that the emission levels from local regulations or operating permits are not exceeded.</li> <li>Refer to the EIGA code of practice Doc.30/21 "Disposal of Gases", downloadable at <a href="http://www.eiga.eu">http://www.eiga.eu</a> for more guidance on suitable disposal methods.</li> <li>Return unused product in original container to supplier.</li> </ul>
List of hazardous waste codes (from Commission Decision 2000/532/EC as amended)	: 16 05 05 : Gases in pressure containers other than those mentioned in 16 05 04*.

R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

# 13.2. Additional information

External treatment and disposal of waste should comply with applicable local and/or national regulations.

SECTION 14: Transport information	
14.1. UN number or ID number	
In accordance with ADR / RID / IMDG / IATA / ADN	
UN-No.	: 1078
14.2. UN proper shipping name	
Transport by road/rail/inland waterways (ADR/RID/ADN)	: LIQUEFIED GAS, N.O.S R452A
Transport by air (ICAO-TI / IATA-DGR)	: Liquefied gas, n.o.s. R452A
Transport by sea (IMDG)	: LIQUEFIED GAS, N.O.S. R452A
14.3. Transport hazard class(es)	
Labelling	
	2
	2.2 : Non flammable, non-toxic gases.
Transport by road/rail/inland waterways	
(ADR/RID/ADN)	
Class	: 2
Classification code	: 2A
Hazard identification number	: 20 · C/E Tank carriage · Passage forbidden through tuppels of category C. D and E. Other
Tunnel Restriction	: C/E - Tank carriage : Passage forbidden through tunnels of category C, D and E. Other carriage : Passage forbidden through tunnels of category E
Transport by air (ICAO-TI / IATA-DGR)	
Class / Div. (Sub. risk(s))	: 2.2
Transport by sea (IMDG)	
Class / Div. (Sub. risk(s))	: 2.2
Emergency Schedule (EmS) - Fire	: F-C
Emergency Schedule (EmS) - Spillage	: S-V
14.4. Packing group	
Transport by road/rail/inland waterways (ADR/RID/ADN)	: Not applicable.
Transport by air (ICAO-TI / IATA-DGR)	: Not applicable.
Transport by sea (IMDG)	: Not applicable.
14.5. Environmental hazards	
Transport by road/rail/inland waterways (ADR/RID/ADN)	: None.
Transport by air (ICAO-TI / IATA-DGR)	: None.
Transport by sea (IMDG)	: None.
14.6. Special precautions for user	
Packing Instruction(s)	
Transport by road/rail/inland waterways	: P200.
(ADR/RID/ADN)	
Transport by air (ICAO-TI / IATA-DGR)	. 200
Passenger and Cargo Aircraft	: 200.
Cargo Aircraft only Transport by sea (IMDG)	: 200. : P200.
Transport by sea (INDO)	

R452A

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Reference number: RS-R452A-01

Special transport precautions	: Avoid transport on vehicles where the load space is not separated from the driver's compartment.
	Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in
	the event of an accident or an emergency.
	Before transporting product containers:
	- Ensure there is adequate ventilation.
	- Ensure that containers are firmly secured.
	- Ensure valve is closed and not leaking.
	- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
	- Ensure valve protection device (where provided) is correctly fitted.
14.7. Maritime transport in bulk according to IMO instruments	
	Not applicable.

# **SECTION 15: Regulatory information**

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

### **RS** Regulations

no nogulationo	
Pravilnik o ograničenjima i zabranama proizvodnje, stavljanja u promet i korišćenja hemikalija ("SI. glasnik RS", br. 105/2013, 52/2017, 21/2019 i 29/2024)	: None.
Pravilnik o izvozu i uvozu određenih opasnih hemikalija ("SI. glasnik RS" br. 93/23)	: None.
Pravilnik o Listi opasnih materija i njihovim količinama i kriterijumima za određivanje vrste dokumenta koje izrađuje operater seveso postrojenja, odnosno kompleksa ("SI. glasnik RS", br. 41/2010, 51/2015 i 50/2018)	: Not covered.
